

I am not in favor of the FCC potentially allowing Low Power FM (LPFM) to take priority over current FM translator service. I listen to K-LOVE over two different translators because we live in an hilly area. If K-LOVE's use of the FM translator were to be eliminated, our family and community would no longer be able to enjoy the positive service provided by that station . It is important that the public in our area, and throughout the USA be able to enjoy this right to our pursuit of happiness. Please, do not expand this LPFM service to take priority over current FM translator service. Thank you for the opportunity to send this comment.
